Cost Details

There is a substantial difference between what the actual cost of tuition is and what you will be investing as a returning student. The largest cost we did NOT have at the Amazing Grace campus was the lease of space (the additional square footage needed to lease at 200 Mill).

Amazing Grace Church has provided a scholarship equivalent of over \$4,500.00 for this year for each returning student. This will be the final year the congregation will be able to provide this scholarship.
